

So You Want to be a Doctor?: A Guide for the Student from High School Through Retirement, 164 pages, 9780976444336, 2007, Hilton Publishing Company, 2007, George Rawls, Robert D. Patterson

People who want to become doctors often study a lot of biology, chemistry or other science. Some students work for a year or two in a medical or research job before they attempt to enter medical school. An interview, or direct meeting, also is usually required for entrance to medical schools. This means talking with a school representative. We go through the process as it would be at a medical school graduation, where I bestow upon them the degree of doctor of mini-medicine with all rights and entitlements thereof. While the diploma is not really worth anything, some students put it on the wall in their office or home. Would you like to attend a mini-med school? You can find a link to a list of these schools on our website. What school / university do you go to? What year are you in? Can you speak any other languages? Which? Where did you learn English before? FREE TIME What kind of music do you listen to? Do you play a musical instrument? He was there from Friday evening to Monday morning. Page 32 Exercise 1b Listen again and answer the questions. 1 Sven is a lawyer. 2 His office was on 12th floor. 3 The lift started going down, and then stopped. 4 He pressed the alarm. He shouted. He tried to call his wife. 5 She thought perhaps he was with another woman. 6 Somebody came and repaired the lift. AP credits are offered to high school students who have demonstrated advanced competency in a subject area. However, keep in mind that Advanced Placement credits may satisfy some of the prerequisite requirements, but they may not work for others. [1] X Research source. Be aware that each school may have a different deadline for their application, so you may want to keep a log of the dates. Tip: Keep in mind that you will have to pay a fee for each application you submit. This can add up quickly! If you are eligible, you may be able to apply for a fee waiver. Go through a 3 to 7 year residency program. Near the end of your last year of medical school, usually in March, you will be assigned to a residency program in your chosen specialty. Doctors are one of the most highly sought after professionals today. Plenty of opportunities exist in Canada and around the world for qualified doctors. In order to be licensed in Canada, students in their final year of studies must participate in examinations set by the Medical Council of Canada. Postgraduate studies in medicine, leading to further examinations can be taken in a variety of fields of medicine, including family medicine, internal medicine, and general surgery. Opportunities for working as a doctor are varied. Because of the high demand for these qualified professionals, doctors can work virtually anywhere. Often, provinces and foreign countries offer incentives for doctors to relocate. Our complete guide walks you through how to become a doctor, from high school to residency, with expert tips for success. SAT / ACT Prep Online Guides and Tips.
