In response to these challenges and discoveries, the collective efforts of researchers from every profession and discipline are providing us with a completely new picture of human existence, an The Holotropic Mind: The Three Levels of Human Consciousness and How They Shape Our Lives, Stanislav Grof, H. Zinabennett.Â Understanding consciousness through holotropic breathwork. If you are interested in the holographic model of the universe and consciousness, then you would like to read this book. The model is largely based on the work of physicist David Bohm and neurophysiologist Karl Pribram.Â The author concludes that human consciousness is an expression and reflections of cosmic intelligence that permeates the entire universe and all existence. THE HOLOTROPIC MIND The Three Levels of Human Consciousness and How They Shape Our Lives Stanislav Grof, M.D. with Hal Zina Bennett, Ph.D. Contents Acknowledgments Part IÂ Our boundaries were defined by the surface of our skin, and consciousness was seen as nothing more than the product of that thinking organ known as the brain. Everything we thought and felt and knew was based on information that we collected with the aid of our sensory organs. Following the logic of this materialistic model, human consciousness, intelligence, ethics, art, religion, and science itself were seen as by-products of material processes that occur within the brain. The Holotropic Mind: The Three Levels of Human Consciousness and How They Shape Our Lives Paperback â€ May 28, 1993. by. Stanislav Grof (Author).Â Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzes reviews to verify trustworthiness. Top reviews Most recent.Â ¼In 'The Holotropic Mind' Stanislav Grof exposes his vision of a holographic universe, and he summons convincing amounts of data and evidence for his view. Grofâ€™s contribution is important especially right now as the holographic view of the universe is one of several â€ theories of everythingâ€™ or integrative visions that actually link back to ancient holistic science traditions. The three levels of consciousness are important players in your quest for a healthy, happy life. Power of mind can help you heal and...Â The conscious mind is the part of the brain you are most aware of. You use it for thinking, analyzing, imagining, setting goals, creating, learning something new, and short-term memory. It is the part of the brain you use when you hold a seven digit phone number in your head long enough to dial before you forget it. Faster beta brain waves are usually associated with conscious functions.Â Hopefully the more we learn about our consciousness and the power of mind within our brains and bodies, the more we will be able to use that knowledge to help ourselves heal and achieve our dreams. For Educational Purposes Only. Anyone who has researched some of the more extraordinary human transpersonal capabilities will be familiar with the kinds of past lives, entity encounters, OBEs, psychic episodes and so forth which Grof details. He has very good case studies, but the theoretical standpoint is what interests. He illustrates many interesting phenomena unlocked by regression or sudden experience of the transpersonal. The mind is aware of far more than we think, and human fixations can stem from perceptions many psychologists have ruled out of bounds. By resetting those bounds Grof is revealing new aspects of huma...
