Torres de la CaserAa de Ossio apartment buildings in San Fernando completed in 2007. One of the main drivers of economic recovery is international trade, in turn sparked by dramatic gains in labor productivity. [85] During the economic downturn, Spain significantly reduced imports, increased exports and kept attracting growing numbers of tourists; as a result, after three decades of running a trade deficit the country attained in 2013 a trade surplus [20] which has strengthened during 2014.
