Dynamical Processes and Ordering on Solid Surfaces A. Yoshimori; M. Tsukada Springer 9783642824258 : This volume is the proceedings of the Seventh Taniguchi International Symposium on the Theory of Condensed Matter. The symposium was held for five days from September 10 to 14, 1984 at Kashikojima, Mie, Japan. Dynamical processes and ordering on solid surfaces are the subjects of the symposium. About twenty participants stayed together at Shima Kanko Hotel, the symposium site, during the period. The intense and productive discussion in the bright seaside atmosphere of Kashikojima is believed to have been impressive to all the participants. Dynamical processes on solid surfaces are the target of recent theoretical efforts in surface physics. Home.
