

Ace your Midterms & Finals: Fundamentals of Mathematics; Alan Axelrod, Walton Rawls, Harry Oster, James Holtje; 1999; McGraw Hill Professional, 1999; 9780071367257; 298 pages

Ace your Midterms & Finals: Fundamentals of Mathematics (Schaum's Midterms & Finals Series). Walton Rawls, Harry Oster, Alan Axelrod, James Holtje. Published by McGraw-Hill. Knowing and Teaching Elementary Mathematics: Teachers' Understanding of Fundamental Mathematics in China and the United States (Studies in Mathematical Thinking and Learning Series). Liping Ma, Liping Ma. Published by Routledge. Book Overview. ACE Your Midterms and Finals A new concept in test prep for a new generation of students These class-tested guides feature: Midterms and final examinations--one from each of the top universities throughout the country An introductory essay defining the nature and scope of the course, including its goals and what instructors expect students to learn A step-by-step. Great study Guide for the CLEP. Published by Thriftbooks.com User , 16 years ago. This book gives a great overview of the subject of Introductory Psychology. It was the only book that I could find available as a study tool for the Intro. Psych CLEP exam. I read through this book in about a week, then took every practice test in the back, re-reviewing anything that I got wrong. It's like Cliff Notes for books, but for math. Everything you need to know to pass your class and nothing you don't. Quizzes: When you think you've got a good grasp on a topic within a course, you can test your knowledge by taking one of the quizzes. If you pass, great! If not, you can review the videos and notes again or ask for help in the Q&A section. Wonderful course so far, great first step in refreshing my knowledge of math in preparation for college calculus come fall after 2 years off. - Blake L.
