The concept of separation of powers is the rudimentary element for the governance of a democratic country. This principle corroborates fairness, impartiality and uprightness in the workings of a government. The concept of separation of powers refers to a system of government in which the powers are divided among multiple branches of the government, each branch controlling different facet of government. In most of the democratic countries, it is accepted that the three branches are the legislature, the executive and the judiciary. These organs work and perform their functions independently without the interference of one into others in order to avoid any kind of conflict. The separation of powers is an approach to governing a state. Under it, a state's government is divided into branches, each with separate, independent powers and responsibilities so that the powers of one branch are not in conflict with those of the other branches. The typical division is into three branches: a legislature, an executive, and a judiciary, which is the trias politica model. It can be contrasted with the fusion of powers in parliamentary and semi-presidential systems, where the executive Buy a cheap copy of Separation of Powers Does It Still book by Art Kaufman.
