Since her first in 1961, Emma Lathen, a pair of excellent writers, has written a number of novels that deal with the financial workings of Wall Street. The principal character in over 20 books is widower John Putnam Thatcher, now CEO of the Sloan Guarantee Trust, a staid, conservative commercial bank in New York. It may sound like a chancy idea, to base a series on the world of high finance without throwing in lots of sex and bizarre goings on. It is testament to the genius and the rectitude of the author that such easy solutions are nowhere present.
