In this book I want to zoom in on the here and now. My focus is on current affairs and on the immediate future of human societies. What is happening right now? What are today's greatest challenges and choices? What should we pay attention to? What should we teach our kids? Of course, 7 billion people have 7 billion agendas, and as already noted, thinking about the big picture is a relatively rare luxury. No book can do justice to all of that, and I don't have lessons to teach people in such situations. I can only hope to learn from them. My agenda here is global. I look at the major forces that shape societies all over the world, and that are likely to influence the future of our planet as a whole. Choose books together. Track your books.
