Healthy eating is a pattern of eating that contributes to your best possible health through positive relationships with food and diverse, balanced food choices that meet your needs for nutrients and energy. How do I eat well? • eat regular meals and snacks • try not to get too hungry as this may lead you to choose less healthy foods or portion sizes that are too big • eat a variety of nutritious foods • pay attention to your fullness cues so you know when to stop eating. The best place to start is Eating Well with Canada’s Food Guide (see Appendix B), designed to help you meet all your nutrient needs for the day. Guide to Good Eating is an effective and enjoyable approach to good health, good eating, and weight loss that you can trust. This book is really good. It has 85 recipes in the back.
