## **ACKNOWLEDGMENTS**

I really would like to give a credit for those people who contributed as much things as possible and helped me to accomplish this paper. First of all, I am very grateful for Ashenafi Tola and Samson Demissie who helped me by providing relevant materials which are important for me. I would like also to thank my wife W/ro Ayenalem Ayalew for backing me up by financing and encouraging me. And also Etaferhu Dinegdie and Lidya Zeleke who helped me the most significant work of the paper i.e. the computer work.

Finally, I would like to say my advisor Ato Taffesse Yirga "Thank you" for advising me well and giving me excellent comments.

## **Annex – I**

### **ST.MARY’S UNIVERSITY COLLEGE**

#### **FACULTY OF LAW**

#### **Dear Respondent**

I would like to say “thank you” in advance for scarifying your golden time and for your frank response.

#### **Objective**

The purpose of this questionnaire is to study /assess/ about fire and emergency law in the code of Addis Ababa fire and emergency prevention and rescue agency ,and also used as a partial fulfillment of academic requirement of B.A degree in law.

#### **General Guideline /Direction/**

- There is no need of writing your name.
- Write your comments on the space provided clearly and precisely.
- Try to answer all the question.

## Part One

### Personal Data

#### 1. Age group

20-29

40-49

30-39

50+

#### 2. Sex

Male

Female

#### 3. Service year in FEPPA

1-5

11-20

6-10

21+

4. a) the number of staff (Head office) members engaged in fire service activities

Male \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

b) The number of branch one fire station members in fire service activities

MALE \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

c) The number of branch two fire station members in fire service activities

MALE \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

d) The number of branch three fire station members in fire service activities.

MALE \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

e) The number of branch four fire station members in fire service activities

MALE \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

f) The number of branch five fire station members in fire service activities

MALE \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

g) The number of branch six fire station members in fire service activities.

MALE \_\_\_\_\_ FEMALE \_\_\_\_\_

TOTAL \_\_\_\_\_

5. Describe the position and number of personal / F.M/ in each position in Addis Ababa fire and emergency service.

## Part Two

### Questionnaire for managers and employees of FEPPA

1. What are the various rank structures you use currently?

---

---

2. Describe the existing number of fire trucks and related appliances?

---

---

---

3. What is the total population coverage of each sub station?

---

---

---

4. What looks like the uniform, protective gear and rank markings?

---

---

5. Describe high risk kebeles open market and market building exposed to fire accidents?

---

---

---

6. Describe number of fire accidents and their damages in city of Addis Ababa from 2005-2009

---

---

---

7. Describe the distribution of the existing fire stations in city of Addis Ababa?

---

---

---

8. What way building safety regulation is applied in conjunction with fire code application?

---

---

---

9. Do you think that your organizations scale of salary is fair?

Strongly Agree  Agree   
Disagree  Strongly disagree

10. Do you believe that your pay is under for the job that do?

Strongly agree  Agree   
Disagree  Strongly disagree

11. How would you evaluate the administrative concerned about occupational hazards?

Strongly agree  Agree   
Disagree  Strongly disagree

12. Do you have been delivering adequate fire service to the people?

Strongly agree  Agree   
Disagree  Strongly disgrace

13. Are you happy with the benefits such as over time pay and allowance for hazardous work?

Yes  No   
Neutral

## **Annex – II**

### **St. Mary's University College Faculty of Law**

#### **Interview Questions**

1. What are the reasons why Addis Ababa is becoming as highly vulnerable area to fire incidents?
2. What is the use of fire prevention law?
3. What are the responsibilities of A.A fire and emergency Service?
4. Is their training center in FEPPA?
5. What is done so far to improve fire safety and making sure organizations in corporate fire safety in to their premises?
6. When, how, why and by whom that fire and emergency prevention and rescue agency were established?

Follow Agency Policies! Actions taken following these guides should be performed in accordance with department policies and procedures and federal and state laws. Jurisdictional, logistical or legal conditions may preclude the use of particular procedures contained herein. Fires are destructive, spreading as they grow and consuming the evidence of their initiation. Law enforcement and fire service departments must always determine the cause of the fire, whether arson or accidental, in order to identify hazards and dangerous practices and prevent future fires. Many fires can be prevented through public education – for instance, educating people on safe practices for using room heaters or other gas and electric devices. Recent papers in Fire and Emergency Services. Papers. People. An accurate assessment, the anticipation of an emergency transfer to hospital and knowledge of the regulatory framework ensure the patient is handled efficiently and respectfully. Save to Library. by alexandre allonneau. For example, in the case of anaphylactic shock, a first aid rescuer may make a broader use of the currently available resources than in the procedure applicable to KPP rescuers. Nowadays, the need to inject a medicine (possessed by the patient) is not so obvious for the majority of rescuers. Practical meaning: Changes in the programmes of KPP courses are necessary. Prevention of fires and other incidents. Report and recommendations. A project developed under the Community action programme in the field of civil protection. Prevention of other incidents than fires is not yet so common within fire services. It is covered by the so-called “incident prevention”. The report starts with a summary and six recommendations related to several major issues. In many cases there is good knowledge about response actions but less on causes, problems and losses in deaths and economy terms. More can be done in most nations to find effects, to identify and declare trends. There is also a need to better understand the differences when benchmarking is performed within and between countries.
