A world language is one that is spoken internationally and learned and spoken by numerous people as a second language. A world language is characterized not only by the total number of speakers (native and second language speakers) but also by geographical distribution and its use in international organizations and diplomatic relations. The most widely spoken world language today is English, with millions of second-language users worldwide. French is also similarly categorized as a world language. Languages around the World with International Language Codes Languages of the World and where they are spoken, a list of Language Names in English and French with ISO 639-2 Alpha-3 as well as some of the Alpha-2 language identification codes. One World - Nations Online .. let's care for this planet. Promote that every nation assumes responsibility for our world. Almost half of the world's population claim one of only ten languages as their mother tongue. So who's in the Top 10 most spoken languages? Illustrations by Victoria Fernandez. Determining what are the most spoken languages in the world is a more difficult task than you might imagine. We can say with some confidence that Mandarin, English, Spanish and Arabic will make an appearance (and roughly in what order), but there are some surprises, too!
