
Buy a cheap copy of Revival: Rat Hybridomas and Rat book by Hervé Bazin. The purpose of this book is to provide information which supports the fact that rat hybridomas are no more difficult to develop than mouse hybridomas. This is the Free Shipping on all orders over $10. This description may be from another edition of this product. The purpose of this book is to provide information which supports the fact that rat hybridomas are no more difficult to develop than mouse hybridomas. This is the first book devoted to the development of rat hybridomas. It includes theories, step-by-step techniques, ingredients and apparatus. The focus of this work is on the antibody repertoire, the unique biological properties of rat immunoglobulins, the one-step purification procedure by immunoaffinity chromatography, the absence of C-type particles, and the easy production of large amounts of ascitic fluid containing rat MAb.
