

Progress in Gastroenterology, Volume 4, #597 pages #1983 #9780808915553 #Grune & Stratton, 1983 #George B. Jerzy Glass, Paul Sherlock

The present new volume clearly fulfills that requirement. The field of gastroenterology has the benefit of a number of excellent, comprehensive textbooks. The book reflects Shanthi's dream and vision to create a textbook of gastroenterology targeted specifically to medical students but useful as well to residents rotating on a gastroenterology service and fellows and practitioners preparing for certification examinations and desiring a focused overview of the state-of-the-art of the field. The book reflects Shanthi's high standards and commitment to clear exposition, proper organization, and clarifying figures and tables. The 28 chapters are organized into five sections, each edited or co-edited by one of her colleagues. The Mayo Clinic Gastroenterology and Hepatology Board Review book has been designed to provide Yamada's Textbook of Gastroenterology, 2 Volume Set. 3,259 Pages 2016 400.8 MB 9,687 Downloads New!
