A good rule of thumb is that series have a conventional name and are intentional creations, on the part of the author or publisher. For now, avoid forcing the issue with mere "lists" of works possessing an arbitrary shared characteristic, such as relating to a particular place. Avoid series that cross authors, unless the authors were or became aware of the series identification (eg., avoid lumping Jane Austen with her continuators). Also avoid publisher series, unless the publisher has a true monopoly over the "works" in question. Ante-Nicene Christian library : translations of the writings of the Fathers down to A. A translation of the Five Books against Marcion. The treatises which comprise this volume will be found replete with the vigorous thought and terse expression which always characterize Tertullian. Brief synopses are prefixed to the several treatises, and headings are supplied to the chapters : these, with occasional notes on difficult passages and obscure allusions, will, it is hoped, afford sufficient aid for an intelligent perusal of these.
